# IMPORTANT INFO

## GET THE MOST FROM YOUR EVENT

We want you to get the most out of your special event so we've put together a few handy hints to ensure you're prepared for the ultimate day of paintball adventure. Make sure your entire team are informed and ready for battle by sharing this Information Pack with them.

### COME PREPARED FOR AN AWESOME DAY OUT.

#### REGISTRATION FORMS

Each payer is required to complete an Online Registration Form before they are allowed to play. Your Group Organiser will receive a link to your group's unique registration portal that can be shared with all players and used to register each player. NB: Some centres have poor mobile reception and therefore the registration process should be completed before arrival.

#### FINDING THE VENUE

Group Organisers should ensure all players and drivers have full details on how to get to the centre. Please use the map and directions that we provide with your booking confirmation.

#### FOOTWEAR

Enclosed footwear with ankle support and deep tread is required for paintball.

## HOW MANY PAINTBALLS DO I NEED?

How many paintballs a group or an individual will use varies depending on the type of player, the player or the group's budget and what they want to get out of their event. For those with a set budget or simply more of a Sniper (careful with their ammo) than a Rambo, you are likely to use somewhere between 300 and 500 paintballs during your event. For those who have more Chuck Norris blood running through their veins 600 paintballs or more are likely to be unloaded on the enemy during your event. The average across the country for MiniBall games is about 150-200 balls per mission.
